Dear Sir/Madam

We first employed Jason (Jays Carpentry & Home Improvements) back in 2006, to supply and fit extensive decking area. We had numerous other quotes for the job but we were impressed by Jason's fair quotation for the job and his professional manner.

Jason was very reliable and arrived promptly everyday to carry out the work, and ensured everything was left tidy before leaving each day. We have had no reason to call Jason back to put anything right as the initial work was completed to a very high standard.

We have been so impressed by Jason's work we have on several occasions since asked him to carry further work both inside and outside our property, and we have also recommended Jason to Friends and Family and would not hesitate to recommend Jason to anyone in the future

Yours Faithfully

Mr and Mrs G Breen.
